Here's a paragraph on "Pollution":

**Pollution** is one of the biggest problems faced by the modern world. It occurs when harmful substances are introduced into the environment, causing damage to air, water, and soil. Industrial waste, vehicle emissions, and plastic disposal are major sources of pollution. Air pollution can lead to breathing problems and other health issues, while water pollution affects aquatic life and human health. Soil pollution reduces fertility and harms crops. To protect our planet, it is important to reduce pollution by planting trees, using clean energy, and avoiding the excessive use of plastic. Everyone's small efforts can make a big difference in keeping the environment clean and safe.
